REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1, 47-64, 70, 74-81, 86-97, 99, 100, 101, 103, 104 and 114-127 define over the prior art rejections of record because the combination of the references of Bisconte and Price do not meet the instantly claimed combination of elements recited in independent claims 1, 51, 57, 70, 74, 75, 80 and 114 including the claimed means for dynamically controlling (element 216 (Fig. 1b, page 13, line 17 through page 14, line) the closed environment of the incubation means. Specifically, the reference of Bisconte does not teach a dynamically controlled environment as instantly claimed. The flow of sterile and hot air which passes through compartment 3A is not dynamic as required of the instant claims (See page 37 of the Appeal Brief filed 2/5/2010). The combination of the references of Bisconte and Price also fail to teach or suggest the use of biochemistry as part of the determining means (See page 28-29 of the Appeal Brief filed 2/5/2010). The combination of the reference of Bisconte and Price are drawn solely to the use of imaging techniques.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
